GENERAL DISCLAIMER

DEVIATION: Please note that there are deviations inherent to the printing materials and techniques. The deviations are within standard industry tolerance and hereby deemed acceptable by customers.

COLORS: Please note that only the PANTONE coated color system is accepted to match the required colors (unsupported color systems: PANTONE uncoated, PANTONE TPX, CMYK, RGB, etc.). A color deviation of +/-10% is tolerable by industry standards. When colors are not specified, based on our experience, we would recommend popular colors from PANTONE coated system. If your logo has a specific color set using other color systems, we would convert it to the closest PANTONE coated colors based on the display colors on our screen. However, accuracy in color conversion is not guaranteed.

DIMENSIONS: Please allow a length deviation of +/-5mm. Please note that if your choice is angle cut, the angle cut is not included in the length measurement and the angle might be slightly different with that shown on the artwork.

POSITIONS OF DESIGNS: Please allow deviations of +/-1mm (vertical) and +/-5mm (horizontal) from your artwork.

EDGE OF THE WRISTBAND: Please note that due to technical limitations, the edge of the silicone wristbands is not as smooth as metal wristbands. Some wristbands might have partial rough edges.
